## Patient Questionnaire for Dizziness

$\qquad$ Date of Birth $\qquad$ Date $\qquad$
Main Occupation $\qquad$ Additional Occupation $\qquad$

1. When did your FIRST episode of dizziness occur? $\qquad$
2. What were you doing when you had your FIRST dizzy spell? $\qquad$
3. How long did your FIRST episode last?
4. Have subsequent dizzy episodes been as severe as the first?
5. Were you ill during or shortly before (within six weeks) your first dizzy spell? $\square$ YesNo
6. Do you have a history of any of the following?

| $\square$ Seizure disorder | $\square$ Tuberculosis | $\square$ Syphilis |
| :--- | :--- | :--- |
| $\square$ Lower back pain | $\square$ Neck pain | $\square$ Arrhythmia |
| $\square$ Neck injury/surgery | $\square$ Diabetes | $\square$ Low blood sugar |
| $\square$ Knee injury/surgery | $\square$ Headaches | $\square$ Elevated cholesterol |
| $\square$ Back injury/surgery | $\square$ Migraines | $\square$ Heart attack/surgery |
| $\square$ Hip injury/surgery | $\square$ Arthritis | $\square$ Hole in eardrum |
| $\square$ Loss of feeling in feet or legs | $\square$ Stroke | $\square$ High blood pressure |
| $\square$ Major head trauma | $\square$ Ear surgery | $\square$ Heart disease |
| (involving loss of consciousness) | $\square$ Anxiety | $\square$ Thyroid disorder |
| $\square$ Infections requiring hospitalization | $\square$ Panic attacks |  |
| $\square$ Eye problems/injury/surgery | $\square$ Depression |  |

7. How would you describe your dizziness?Lightheadedness
$\square$ SpinningUnsteadinessSwimming, floating or motion sensation
8. Do you have any of the following symptoms during your dizzy spell?

## $\square$ Nausea

$\square$ Vomiting
$\square$ Ear pressureEar noise (ringing)Hearing loss

$\square$ Ear drainage
RightBothAuras (warning symptoms)
$\square$ Loss of consciousness
$\square$ Headache
$\square$ Double vision
$\square$ Falling towards
$\square$ Numbness
$\square$ Weakness

$\square$ Difficulty with speech
$\square$ Difficulty with swallowing
9. Does anything improve your dizziness symptoms?
10. Is your dizziness constant (continuous day and night)?
$\square$ Yes
$\square$ No
11. Does your dizziness come in attacks or waves? (if no, skip to next question) $\quad$ Yes $\quad \square \mathrm{No}$
a. How long does a typical attack last?
$\square$ A split second
$\square$ Less than one minute $\square$ Several minutes
b. How often are your attacks on the average?Many times per dayOne every few monthsEverydayOne or more per weekOne per yearAt least one each month
c. When was your last attack?
d. Do you completely recover in between episodes?Yes
12. What factors trigger or make your dizziness worse?
$\square$ Rolling over in bedStanding up
Bending overHead motion
$\square$ Fatigue
$\square$ Exertion
$\square$ Hunger
$\square$ Emotional stress
$\square$ Illnesses
$\square$ Menstruation
$\square$ Straining or lifting
$\square$ Traveling by: $\square$ Automobile $\square$ Boat $\square$ Airplane
$\square$ Walking: $\square$ Anytime $\square$ In the dark
13. Which of the following best describes the severity of your dizziness?
$\square$ I can still go about my daily activities
$\square$ Imust lie down
$\square$ I need support to stand up
$\square$ I must sit down until it goes away
14. Which of the following best describes the progress of your dizziness?
$\square$ Getting better
$\square$ Staying the same
$\square$ Getting worse
15. Do you have any blood relatives with any of the following disorders?

| $\square$ Multiple sclerosis | $\square$ Dizziness |
| :--- | :--- |
| $\square$ Otosclerosis | $\square$ Hearing loss |
| $\square$ Migraine headaches | $\square$ Meniere's disease |
| $\square$ Nerve tumors |  |

16. Other tests you have had in the past (e.g., blood work, MRI, CT scan, hearing test, neck x-rays, neurology eval) $\qquad$
17. Alcohol use? Amount/frequency
18. List any medications you are currently taking $\qquad$
$\qquad$
$\qquad$
